POTUS in back oval praying for you

Cold winter air blowing in as music coming in from ellipsis

POTUS: "is there going to be food there. Want it to be free. Hows the weather."

Song playing "we learn to love and laugh slot and that's all I need"

JAN 6TH

Ride to WH. Trump people everywhere. Joke with driver about how hard it was to get past barrier. Took 30 mins. Typically 3 min drive.

Iran FAA transmission. Plane capitol story. Mom mentioned it to me. Dismissed as rushing out. Chad brought up outside my office.

We see coup chyron on CNN - stunned by chyron because we were under the assumption would be peaceful. Day began. POTUS to rally. VP letter comes out during rally. Meadows came to me and said VP just released letter moments before potus ended

POTUS wanted to walk to capital. Physically walk. He said fine ride beast. Meadows said not safe enough Muller - want to walk to capital with them?

We go back to WH. I bring him letter from VP. He wants to respond. Forgets about it. Back there and he wants list of senators. Who objecting to what. He's calling them one by one.

Go back to office. Order turkey sandwich. Come back to eat. watching tv. Seeing something about violence and protest.

CBS producer stormed in. Look at tag. Not sure if staffer or reporter. She accosts me walks in office and asks for my thoughts. Lyndee was away. She runs away and says no comment.

Chad runs after. Chases down and says I didn't say NC. I hadn't seen story. He tells them not to say No.

I decided to go to potus after there were more reports of capital on lockdown. Ivanka. Chief. Me. Dan.

Herdsman. He writes first sentence. I say add "we support PEACEFUL protest". Ivanka add stay peaceful! Instead

Went back second time after reports of gunshots. They had already drafted and sent second tweet:

Then Ivanka says Lindsey Graham called and said story about is denying NG. She gives me her phone and dials LG. LG says to me story going around among senators here that WH denied national

Guard. It's false! I said I will go fix it. MM dictates quote to me. "Got natl G on way with other federal protective services. Those were deployed immediately and have been in place for more than 24 hours at mayor's disposal."

Said get out immediately. Rush out. Pop head in office. Chad run to Judd's. Dictate to Judd who says tweet

don't sent to pool. I prepare to tweet but we have qualms about the mayor part. I said I wil go double check with Chief. Rush into oval. Chief walking in from outer oval. I show him hirschmann and him read. Hirschman says no to second sentence. Cippollone comes in and says NG not deployed yet. Chief said yes we are. Chief says I talked to DOD myself and said deploy. Better deploy. Run out to tweet. Get Chad.

Lyndee came in and said video crew coming. I go inS potus preparing to give comment: Biden speaking. We were in middle of filming video. Potus looks at tv. We discuss statement editing on Austin computer. We make sure in there is "go home" important part of message. Biden calls for him to speak literally as potus filming. Jared walks in.

Judd saying considering withdrawing objections.

Ben and Stephen Miller in office.

Mess closes. No food. It's 4:30

Cassidy comes and says COs wants everyone to leave.

Pelosi called DOD screaming for armed military in told, asked for come to capitol and yet when church burning, polic attacked she was anti-insurrection act

Bowser: "there will be law and order"

It occurred to me in that moment what I needed to do: a press conference. Ideally, potus would speak. If he didn't, I would even thought it would be difficult.
